0.5 mL Fluorescence Detection Tubes for NS1020 Quantification Kits (NS1020-T, Pack of 250)

SKU NS1020-T · Analytical & Weighing · Nano-Spectrophotometer Quantification Kits

The NS1020-T is the 0.5 mL fluorescence detection tube consumable for the Accuris NS1020 SmartDrop XF Nano-Spectrophotometer dsDNA quantification

TECHNICAL SPECIFICATIONS

CAPACITY

250 tubes

OPTICAL CLARITY

Yes — supports fluorescence excitation and emission...

COMPATIBLE QUANTIFICATION KITS

NS1020-BR-100 Broad Range, NS1020-HS-100 High Sensitivity

TYPE

0.5 mL optically clear fluorescence detection tubes

CROSS-PRODUCT EQUIVALENT

F1001-T (same 0.5 mL tube format sold under Smart-Q 100...
