Accuris Taq Master Mix Red Dye, 200 Reactions

SKU PR1001-R-200 · Reagents & Kits · End Point PCR Reagents

The PR1001-R-200 is the standard Taq 2X Master Mix WITH Red Dye — sold as 200-reaction pack (4 × 1.25 mL tubes) per the Accuris Life Science Reagents

TECHNICAL SPECIFICATIONS

CAPACITY

200 reactions (4 × 1.25 mL tubes)

PCR MODE

Standard endpoint Taq (non-hot-start, non-HF)

STANDARD SISTER

PR1001-200 (same 200 rxn pack, \$94, no Red Dye)

SAMPLE

PR1001-R-S (5 reactions, \$7.65)

LIST PRICE

\$95.09

TYPE

Single-tube 2X standard Taq master mix with inert red gel...

MASTER MIX COMPOSITION

Taq DNA Polymerase + buffer with PCR enhancers + 2 mM...

WORKFLOW ADVANTAGE

Direct gel loading — no separate loading-dye addition...

LARGER PACK

PR1001-R-1000 (1000 reactions)
