Accuris qMAX™ Multiplex One-Step 4X RT-qPCR Kit, No ROX, 10,000 Reactions

SKU PR2124-N-100BLK · Reagents & Kits · qPCR Reagents

TECHNICAL SPECIFICATIONS

TYPE

One-Step RT-qPCR Kit — 4× concentrated multiplex...

REACTIONS PER PACK

10,000 reactions (double-throughput bulk pack)

WORKFLOW

One-step (RNA template → high-multiplex qPCR result in...

POLYMERASE

Accuris Hot Start Taq with antibody-mediated hot-start...

RNASE INHIBITOR

Included in optimized buffer

PACK SIZE CONTEXT

100BLK = 10,000-reaction double-bulk pack at \$10,295...

MASTER MIX CONCENTRATION

4× concentrated (vs PR2122 sister kit at standard 2×...

ROX FORMULATION

No ROX — compatible with cyclers that don't require ROX...

DETECTION CHEMISTRY

High-multiplex probe-based real-time qPCR

CYCLER COMPATIBILITY (NO ROX)

Bio-Rad CFX, Roche LightCycler, Eppendorf Mastercycler...

REVERSE TRANSCRIPTASE

Thermostable MMLV-derived

MULTIPLEXING CAPACITY

High-multiplex panels — typically 5+ targets per reaction

SISTER PACK SIZE

PR2124-N-50BLK (5,000 reactions, half-throughput)

LIST PRICE

\$10,295.00
