

LLS QUICK VIEW · YAMATO SCIENTIFIC

Cellpuri Cell Separation System , Centrifuge-Free Microfluidic Cell Enrichment

SKU CCP-FP · Life Science · Cell Separation

The Yamato CCP-FP is the Cellpuri cell separation system — an innovative, disposable microfluidic chip that concentrates and enriches cells without

TECHNICAL SPECIFICATIONS

PRODUCT

Cellpuri Cell Separation System (disposable enrichment...

FORMAT

Single-use disposable chip

ENVIRONMENT

Operates within a clean bench

CENTRIFUGATION

Not required

SEPARATION PRINCIPLE

Size-based, Filterless Filter (FLF) technology in...

ENRICHMENT

Over 20-fold

HANDLING

Shear-stress-free (gentle); reduces clumping

CELL RECOVERY

~95% (high viability)

PROCESSING TIME

~2 minutes

LIST PRICE

\$5,000.00
